-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8 and 9 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8 and 9 are indefinite in that line 2 of claim 8 refers to the target color of claim 2. Since claim 8 depends from independent claim 6 via claim 7, it appears that either claim 6 or 7 should be referenced in line 2 of claim 8 rather than claim 2. Claim 9 inherits the problem of claim 8 through dependency. Correction/clarification is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 12/1, 13/1 and 16/1 rejected under 35 U.S.C. §102(e) as being anticipated by Marchand et al (US 6,914,613 B2).

Marchand et al disclose a computer-implemented method for determining a color matched repair paint formula, said computer-implemented method comprising: a) identifying the color characteristics of a target color to be matched (column 9, lines 19-25); b) inputting and processing said target color characteristics to enable a visual display of said target color (column 9, lines 24-26); c) selecting from a

color database, an alternate color, or a plurality of alternate colors, said selection made based upon color characteristics of said target color to be matched (column 9, lines 24-26); d) processing and visually displaying said alternate color, or plurality of alternate colors, to enable comparison with said target color (column 8, lines 59-62 and column 9, lines 27-31); and e) selecting a desired alternate color and determining the formulation thereof (column 9, lines 40-47). Applicant's attention is directed to Marchand et al in its entirety.

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. § 102(e). This rejection under 35 U.S.C. § 102(e) might be overcome either by a showing under 37 CFR § 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR § 1.131.

Additional Prior Art

Rice et al. (US 6,563,510 B1) disclose a paint color matching method comprising receiving an input reference color; selecting a reference paint color from a database of architectural paint colors by comparing the input reference color for likeness with the paint colors from the database; and displaying color samples.

Allowable Subject Matter

Claims 6, 7, 10, 11 and 12/6-16/6 are allowed over the prior art of record.

Claims 2-5 and 14/1 and 15/1 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As to claim 2, the prior art of record, taken alone or in combination, fails to disclose or render obvious a computer-implemented method for determining a color matched repair paint formula

comprising the step of displaying the target color superimposed over an image of a vehicle to be repaired, in combination with the rest of the limitations of the claim.

As to claim 5, the prior art of record, taken alone or in combination, fails to disclose or render obvious a computer-implemented method for determining a color matched repair paint formula wherein the step of selecting from a color database, an alternate color, or a plurality of alternate colors, is further made on the basis of metamerism, or metamerism index, in combination with the rest of the limitations of the claim.

As to independent claim 6, the prior art of record, taken alone or in combination, fails to disclose or render obvious a computer-implemented method for determining a color matched repair paint formula comprising the steps of visually displaying flake appearance options for the alternate color, or plurality of alternate colors and selecting a desired alternate color and determining the formulation thereof, in combination with the rest of the limitations of the claim.

As to claims 14/1 and 15/1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a computer-implemented method for determining a color matched repair paint formula comprising the features set forth in lines 1-5 of each claim, in combination with the rest of the limitations of the claims.

Fax/Telephone Numbers

Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner whose telephone number is (571) 272-2414.
